Present the following TEEX Course Offering:

Weapons of Mass Destruction Threat and Risk Assessment Course

February 10th, 11th, 12th – 2009

Sanford Stevens Center – Sioux Falls, SD

Description

The course incorporates the principles of Homeland Security Presidential Directives and prepares emergency responder managers and community leaders to conduct a capabilities-based comprehensive Threat and Risk Assessment for a Weapons of Mass Destruction (WMD)/Terrorism/Natural Disaster Incident: relevant to any scenario. The course delivery combines lecture, small group discussions, participant activities, and multimedia scenarios to improve the emergency team's capability to prepare for, prevent, respond to, or recover from multiple hazard incidents.

At the conclusion of the training, the team is able to:

- ♦ Use the Training and Exercise Integration Secretariat's Assessment model to enhance decision making, planning, and teamwork
- ♦ Identify and evaluate Potential Threat Elements and WMD in the area
- ♦ Conduct basic and agricultural vulnerability assessments and identify capabilities to meet needs
- ♦ Prioritize needs into one of five solution areas – planning, organization, equipment, training, and exercises
